

D10 PRO ISS

HI-END NEOPRENE BACK-ZIP WITH INTEGRATED SILICONE SEALS.

Our top selling Neoprene model D10 PRO is now upgraded with ISS, the unique Integrated Silicone Seal system Waterproof developed and presented to the diving market recently.

During all our years of continuous testing in harsh conditions, we have found that nothing can match the 3,5mm Special Hi-Dense neoprene with SD Toughtex lining we use for our most outstanding neoprene product, the D10 PRO ISS Drysuit.

Loaded with features this suit brings it all. Si Tech ring systems with exchangeable silicone seals at wrists and neck that you can change in a matter of minutes. Kevlar reinforced and angled boot, zip armoured dry zipper, warm cuff system, warm neck, real rubber kneepads, embossed panels, PU-reinforced shoulders and double pockets to mention a few. And all the know-how that we bring from our 25 years experience of diving in the Antarctic & Arctic.

The D10 PRO ISS, as all Waterproof ISS suits, is fully prepared for the unique Antares Dryglove system. No rebuilding, No lost time in a workshop, do the adaptation at the waterfront or in the boat on the way out to the dive site. Click on the dry gloves and jump into the water.

Includes a H1 5/7mm hood with double vent H.A.V.S technology

FEATURES AND DETAILS

WARM NECK
The unique warmneck solution from Waterproof, keeps you warmer because of reduced water movement around the neck. Equipped with water drain valves and moulded velcro tabs.

ANATOMICAL KEVLAR REINFORCED BOOT
Angled for the best mix of durability and performance. Kevlar reinforced front. Moulded Fin Strap Anchor.

RUBBER KNEEPADS
Anatomically shaped, 3D knee/shin guard for hardcore protection, without compromising comfort and flexibility.

DRY ZIPPER WITH CHILL GUARD
A BDM Gas-proof zipper with chill guard, keeps body heat in and your undergarments out of the zipper for trouble free operation.

SILICONE WRISTSEAL
Wrists are equipped with WP's Silicone Seals. Extremely comfortable and easy to change.

ANATOMICAL SCULPTING
All critical parts concerning movability, like arms, legs and torso have been anatomical designed to enhance the liberty of action.

HIGH VISIBILITY
Reflective logos on the back of the neck and both sleeves.

WP INTEGRATED QUICK SEAL
Waterproof's new ovale wrist ring quick connector for wrist seals. D7 PRO features the new integrated Silicone Seal.

A SEAT THAT GRIPS
Polyurethane embossing provides a non-slip grip and abrasion protection.

SILICONE NECKSEAL
The neck is equipped with SI TECH's NeckTite system and comes with WP's Silicone Neck Seal. Extremely comfortable and easy to change.

SI-TECH VALVES
Swivelling inlet valve and adjustable automatic outlet valve. Provided by SI TECH.

SEAM-FREE CROTCH
The Crotch is made in one piece, no seams. This to ensure a more durable and comfortable suit.

DUAL CONVERTIBLE POWER POCKETS
Heavy Duty expandable pockets allows you to easily choose between huge capacity or slim profile pockets based upon your needs. D-Rings inside.

SHOULDER ARMOUR
Padded wear resistant shoulders - finally a suit that can take as much as you can.

HEAVY DUTY ZIPPER COVER
The Heavy Duty Zippered Cover provides maximum protection of your dry zipper.

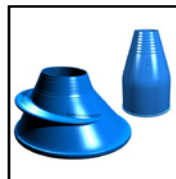

WARM CUFFS
The arms are equipped with detachable warm cuffs that minimize heat loss at the wrists. Just put the glove underneath the cuff and close it with the moulded velcro tab.

INCLUDING H1 5/7mm VENTED HOOD
The vented H1 HAVS hood features a 7mm double layered protection in critical heat loss areas. With glide skin seals for neck and face.

INTEGRATED SUSPENDERS
Adjustable integrated suspenders for comfortable fit.

SPARE SET OF SILICONE SEALS INCLUDED
No more ruined dives because of a ripped seal. You can change to a new seal in minutes.

INCLUDING DRY BAG
A Waterproof 1000 Cordura bag is also supplied as standard, which can be carried as a backpack.
